Dental insurance is an added benefit, a contract between you and your insurance company. Dental insurance does not dictate our policies or your treatment plan.

We work with most insurance companies and do our best to verify your benefits and estimate the impact on your account. Please keep in mind we are not in network with any insurance companies, we will receive out of network benefits..

BE AWARE: A quote of benefits and/or authorization does not guarantee payment or verify eligibility. Your balance remains your responsibility. _____

(initial and date)

Example: Resin Composite - your insurance may reduce your benefit to Amalgam Composite

UCR (usual & customary rates) - An amount that the insurance sets to base your benefits. Our office is not privy to this information.

Radiograph (x-ray) Frequency - your insurance company may set limited frequency restrictions that have no correlation to your health or treatment.

Patient Signature: _____

308 East Park Street
Auburndale, Florida 33823
